

produce_files_df

```
graph TD; A[produce_files_df] --> B[extract_data_from_files]; A --> C[infer]; B --> D[join_annotations_and_predictions]; C --> D;
```

A flowchart with four nodes in rounded rectangles. The top node is 'produce_files_df' with a red border. It has two arrows pointing down to 'extract_data_from_files' (cyan border) on the left and 'infer' (yellow border) on the right. Both of these nodes have arrows pointing down to a final node 'join_annotations_and_predictions' with a green border.
